

## Little People Village

### Description/Instructions:

Tell the children a story about how the little people's village was destroyed by a dragon that dwells in the woodland. Luckily they were all away but are returning today for a special celebration and need somewhere to live.

Ask the children to build homes for the little people to live in and to build whatever they think the little people might need or want for their celebration.

### How could this activity be adapted for different learners?

Varying amounts of guidance can be given as needed – i.e. suggestions for what things could be build and what materials could be used. Generally though the more hands off the better.

### What tools or equipment are needed?

### What themes or topics could this activity support?

Little people.

### What areas of development could this activity support?
