

Mini Rafts

Description/Instructions:

A simple but fun activity when you have access to water. This is a good activity to teach or practice square lashing. There are endless ways of building these rafts. Leaves can be used as sails and the rafts can be decorated with other items.

How could this activity be adapted for different learners?

What tools or equipment are needed?

String.
Access to water to float the raft.

What themes or topics could this activity support?

What areas of development could this activity support?
